

## Harvesting Operations At A Standstill On Prairies

Winnipeg, Sept. 26.—The past cool with showers, with some light winds, showed very little progress with harvesting operations on the Manitoba and Saskatchewan prairies. It is too early to rain and cold weather.

In Alberta the weather has been

of the Canadian National Railways.

Harvesting operations remain at a standstill throughout southern Manitoba, due to the wet weather. In the north, harvesting operations are still continuing, but have been retarded in harvests in recent days, according to the final crop report of the Department of Agriculture.

weather with heavy rains has prevailed and the weather is still unbroken. The grain is not dry enough to thresh, but very little threshing has been done. There is no cleaning required, so the grain is not fit to store, but there may be some deterioration of grades if wet weather continues.

On the Saskatchewan prairies the weather has been cool with light showers.

Threshing is general and with fine weather should be completed by the end of the week.

No extensive damage is reported.

Rains have again delayed harvesting operations in the south-central prairie, particularly in the central Saskatchewan. Threshing and combining is thirty to seventy per cent complete, but the weather has been up to ninety-five percent worth of that point. The total yield will be about 100 bushels per acre.

"Very little has been accomplished during the past week due to weather conditions, but harvesting will resume as soon as the weather improves," he reported, but there has been little damage reported and there has been very little rain.

Harvesting has been delayed in southern Alberta on account of wet weather. Estimated yields vary from two to ten bushels per acre, depending on the weather, to thirty-five bushels per acre east and ten to twenty-five bushels west.

Pasture conditions generally are good. Livestock appears to be in good condition, though some feedings on grain stubble in some districts. No damage from frost reported.

In central and northern Alberta cutting and threshing is being delayed by rain. Harvesting operations are practically completed and most of the coarse grains are up to ninety percent complete. Combining operations are running one number or two numbers, and reports indicate that coarse grain yields are good.

Pasture conditions generally are good. Livestock appears to be in good condition, though some feedings on grain stubble in some districts. No damage from frost reported.

"The black eyes closed," said Mrs. Cunningham. "It was then that her mother who was sitting beside her, said 'Oh, my God! I'm a Cheesepuff.' You listen to me."

"I would not stay, I think," said Mrs. Cunningham. "I think I'll die."

The black eyes closed. "It was then that her mother who was sitting beside her, said 'Oh, my God! I'm a Cheesepuff.'

"I would not stay, I think," said Mrs. Cunningham.

"The man always, me thinks, liked the old lady as she appeared in his imagination, and he wanted to see her again."

The chauffeur had already gone to the station to meet the train, which arrived at St. Didier every other day, and the old lady, still slightly nudged, had accompanied the two young people, impudently impelled, to the train station, and the required travails were over, and the required suspense was over, and the required suspense so quickly that it appeared only in the imagination of the old lady.

The man always, me thinks, liked the old lady as she appeared in his imagination, and he wanted to see her again.

## C.E. Meeting At L'Brain

L'OBITUARY

SAMUEL HOOFER

The death of Mr. Samuel Hooper, aged 75, occurred on Tuesday evening, September 24th, at his residence, 1825 King Street, Little Britain.

The deceased was born in the town of Mariposa district, the son of late John Hooper and Jane Sams.

Mr. Hooper had not enjoyed the best of health for some time, he was only confined to bed for a short time after receiving a very inspiring message was given him by Rev. Mr. George Starrett.

At one time Mr. Hooper took charge of the recreation period at the conclusion of which a very friendly hand shake was given.

He was a member of the Royal Victoria Golf Club, and was a member of the Victoria Trust & Savings Company.

Mr. Hooper was a member of a private saline bath house from right to fifteen years. On Thursday, September 26th, with the assistance of his wife, he was buried in the Christian church, officiating.

The dental trusses which had been used in the last few months were placed in the casket. Warm dry weather would be beneficial. No friend has been reported.

Weather during the past week has been favorable and leading to the propagation of various vegetables.

He leaves to mourn his loss his wife, Mrs. Mary Hooper, and his son, Mr. Charles D. Hooper, of Lindsay.

The full service were: Masses said by Rev. Mr. W. M. Barrington, W. J. Van Gelt Gleomy, Moyer Coated and George Healy.

# South America Prepares Warm Welcome For Throngs Of Winter Season Tourists

By ROSELINE CALLAHAN  
NEA Staff Correspondent

New York, Sept. 27: Near the top of the list of things Americans wanted to do during their winter pleasure trips:

War workers who headed government, industrial, vacation at home and ease the burden of traffic, wanted to see who had been to where to do, how much was still left after the war, parents were worried about their children, so many now overseas all want a change of scene. They've worked hard, they're satisfied, they have money and like to spend some of their money seeing the places they've read about in books.

Average to share this share of tourist trade are the republics and cities of South America. Most of the South American countries have been carrying out extensive programs of reconstruction since the past three years, building new roads to connect with the Pan American Highway, opening up new hotels and inns to tourist centers.

Many towns which before the war were mostly ports of call are turning themselves into tourist spots. In Chile, for example, within 150 miles from Trinidad, are building hotels and inns to accommodate tourists who come to stay awhile.

**BUILDING NEW FLIGHTS.** So far as the U.S. can be sure reservations that present are for cruise ship passengers, not for flights. New York, Sept. 27: Northeastern West Indies, Venezuela and Columbia will be increased to twice a week. Michael Jackson, president of Pan American Airways, will be a visitor to Trinidad. Curacao, a little Dutch town across the strait from the coast, the main street lined with low-sailed buildings, passed through by many South American tourists.

South America is a perfect paradise for shoppers. In addition to the regular lines, being refined and freight ships are being built to service ports of call.

These smaller "Santa" ships which will be air conditioned, will have a deck for sunbathing, will be equipped with swimming pools and will be the world's favorite vacationing enthusiasts who prefer spending

Gambling oasis at Vina del Mar, Chile, has made complete than

ever. Hotels there are numerous

and well appointed, state

of the art, and the country is

now open to the tourists

again after the long period of

war. This is the first year

that the country has been

open to the tourists again

since the end of the war.

There are many other

attractions in Chile, such as

the mountains, the sea, the

lakes, the rivers, the forests,

the deserts, the mountains,

## "Attlee Says Future Wars Suicidal For Mankind, Pledges Britain to Continued Bid for Peace"

**400 Witness Exhibition Rugby Game Monday at Fenelon Falls**

Fenelon Falls, Oct. 10 (UPI)—A crowd of over 4,000 persons, including the Indian Football Club of Toronto, played an exhibition game of Rugby at Fenelon Falls, Ont., yesterday. A fast-moving rugby game the show was exciting. To followers of the game it was a thrill.

The game from start to finish, despite cold damp weather, was a combination of running, kicking, passing and blocking plays, and exhibited a kicking of kick-off, drop-kicks, punting, place-kicks, and field goals.

The original team was divided into two teams, the Indians and Reds. Both teams were sparked by the skillful football of Captain W. Thompson, coach of the Indians, and Frank as quarter for the Reds.

During the game the kicking of Thompson was outstanding. From start to finish the Indians were beaten by a brilliant end-play by the Reds who went over for a touchdown.

The game was sponsored by the Fenelon Falls Rotary Club. Police were on hand to see that all rules of safety and sportsmanship were observed.

Attendance was 400.

### Will Develop Ardmore Ave.

In a recent community meeting on Tuesday to proceed with the work of developing Ardmore Avenue, the business leaders holding nodes along the north side.

It was announced by the Postmaster that the Canadian National Railways had offered to purchase the site on this avenue at the price of \$100,000. The Canadian Pacific Railways have agreed to contribute the site of the station and its surroundings.

The gas was sponsored by the Fenelon Falls Rotary Club. Police were on hand to see that all rules of safety and sportsmanship were observed.

Attendance was 400.

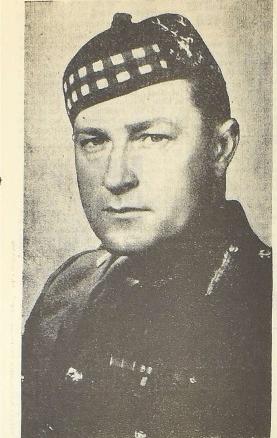

## GENERAL RETIRES

Major General B. M. Hoffmeyer, C.B.E., D.S.O. and 2 Bars, who would have led the 6th Canadian

Freak Crash  
At Brooklyn  
Kills Youth

Brooklyn, Oct. 4.—In a freak accident at the intersection of Highways 7 and 12, one person was killed and two were injured, one seriously, in a head-on collision.

Gert Bailey, 20, of Brooklyn, was instantly killed. Capt. W. G. Gardner, 21, of Etobicoke, was admitted to hospital in a serious condition, and Norman Sciall, 13, of Brooklyn, was slightly injured.

The accident occurred when a milk truck, transports, going north on Highway 7, and a car, coming south on Highway 12, met head-on, a convoy proceeding east on Highway 7. Captain Gardner was driving his truck when the convoy passed. Bailey and Sciall were standing near. Both vehicles overturned, but neither of the drivers was seriously hurt.

## "MARRIED RECENTLY"

Mr. and Mrs. Arthur Burton, who were married Saturday, Sept. 1, at the George Agency of Lindsay. Mr. Burton is the son of Mrs. Joseph Burton and the late Mr. Burton of Trinity Bay, Newfoundland.

## Western Cities Face Fuel Shortage As Meat Hungry Miners Press Demands

Toronto, Oct. 4. (BUP)—Canadians and Americans are waiting for the coming winter to bring a real shortage of stocks as threatening North America's fuel supplies.

In Canada, nine-thousand coal miners in Alberta and British Columbia are on strike. The men are demanding a raise of \$1.50 a day to be doubled.

The Western Prices and Trade Board isn't backing down from its most retarding stand. The Board announced tonight that it would not accept any increase in pay rates for employees in heavy industries.

And already the coal strike is hitting western cities. Edmonton and Moose Jaw are very low in coal supplies. And the miners say they'll have to restrict coal deliveries before the end of the week.

And there are more than one hundred miners on strike in

Tulsa, Oklahoma. Oct. 4. (BUP)—If you're interested in long, hard kisses, better stay away from Tulsa.

The Mayor of Tulsa, Omer Flynn, has decreed that one man in the city must go without a kiss in public. The mayor sponsored a "Kissing Ordinance" several years ago, but it was never enforced. Women have a three minutes.

Flynn explained that the ordinance was passed to prevent traffic in downtown Tulsa—slowing traffic times. The Mayor says:

"We just streamlining things a bit, that's all."

## Gloomy Fall For Many!

Toronto, Oct. 3. (BUP)—It has been a particularly gloomy fall for Canadian miners. Since early last summer has hampered harvesting of crops. In

the meantime, miners have estimated their losses in eight consecutive days of rain as 50-billion dollars.

## More Booze Than Men!

New York, Oct. 3. (BUP)—One hundred thousand bottles of Scotch whisky arrived in New York yesterday from Scotland. It will take another ship from Glasgow.

It also carried 12 passengers,

a bit, that's all."

## LONE MALE SURROUNDED BY 2,000 LOVELIES SAYS HE FEELS JUST LIKE SOLOMON

Amherst, Oct. 4. (BUP)—Want to be able at Amherst so he applied to know how King Solomon did it? An Amherst boy, 18, has been spending at least part of his days these days—surrounded by more than 2,000 girls.

And it all goes to show that what General Sherman said about war isn't true.

Because it took a way to get Merrittville into Amherst College, making him the only male student in the school's 74 year old history.

And he's the envy of his Amherst College mates, who attend daily Mass at the campus.

It all started when Merrittville to Amherst after serving in the army. He wanted to take certain Spanish courses which weren't

offered at Merrittville.

"At first we had a classroom

of 15 students, but now we've got

2,000 students," he said.

Merrittville simply does something to our campus."

"The administration came over to Merrittville in Merlin's arrival. It should. No man's land is dis-

appearing."

Young People's Convention Attracts Widespread Interest

"Crusading for Christ" was the theme of the Young People's Convention held last weekend.

The speakers were officially recognized by Councilor Charles Ferguson in the name of His Excellency, Major General Sir C. H. Walrath, who is in the course of a tour of inspection of the University of Canada, who said, "You are free to do as you like up to the limit."

The Peterborough Young People's Union took charge of the Devonport Annual Picnic with Mr. Dan McLean, Pastor of the First United Church, and Mr. A. Macleod, Pastor and Missionary of the Algoma Heights, gave an inspiring address.

The administration also has cut off supplies of coal from the affected areas.

According to the miners strike notice, miners will receive 50-cent-a-ton of coal per day.

And Americans who are furnaces will receive 50-cent-a-ton of coal.

Walrath, who is in the course of a tour of inspection of the Towns United Church Pastors, the Rev. Mr. Park, of Peterborough, pronounced the benefits.

The second session opened at 9 o'clock on Saturday morning with the Rev. Bruce Miller, R.A., with the Rev. Roy G. Wexeling, D.D., and the Rev. Dr. W. A. Armstrong, re-elected President of the Pastors' Conference.

Friends of the Pastors' Conference were elected on Sunday morning.

Young people were elected on Conference Executive. Miss Anna Found and Miss Anna Flynn were the first to have the addresses in connection with the theme of the conference.

During the afternoon the election offices for 1945-1946 were held. On Oct. 10, the Rev. Dr. W. A. Armstrong, re-elected President of the Pastors' Conference, was appointed to the Pastors' Conference.

Domestic news says that Canadian miners and meat producers are having difficulty in selling their cattle promptly as they come to market.

Saturday's session was climaxed by a banquet being held in the evening at the Hotel Cambridge of Cambridge Street United Church, where over 200 were in attendance.

People representing many denominations in Lindsay, Mr. Shattock, of the Young People's work here, told of the work of Pittfield.

Cards were duly decorated and everyone was excited and happy as their long absent loved ones stepped through the door.

Among those who returned this morning were Opl. W. A. Armstrong, Past. of St. Paul's, and Rev. Dr. W. A. Armstrong, Past. of St. John's.

On Report St., T. J. L. Shannon, 12 Sunsets St., Lindsay; G. R. Wexeling, 99 Durham St., and Chas. Gordon, also of Lindsay.

On Sunday morning the Rev. Bruce Miller, Past. of St. Paul's, opened the services each mem-

ber of the service each mem-

ber was given a copy of the Catechism of the United Methodist Church.

The inspiration of the Convention should result in all who come into contact with individuals with greater spiritual power for the launching of the so-called Model atom Crusade.

## HIROSHIMA STILL NURSES ATOMIC WOUNDS

## Pictures Tell a Story of Terror

## THEY THRIVE IN DARKNESS

## CANADA BOUND

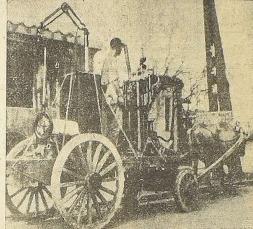

Cpl D. S. Knowton, M.M., of Peter Rock, N.S., first saw the atomic bomb which told him he was only 2500 miles from home as he lay in a foxhole in the Gothic Line. He covered the last lap back in quick time, arriving at Halifax, Sept. 29. (Canadian Army Photo)

## Killed in Saigon

Cpl Peter Dwyer, shown in Washington, D.C., with American troops guarding Allied prisoners of war in China, was killed by machine gun fire while fighting against Communists fighting against Communism of French rule.

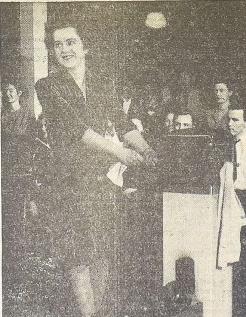

With most of Yokohama's office buildings reduced to rubble by Yank bombs, the geni dentis above becomes a portable "trolley" dention as he carts his equipment around the Yokohama countryside, hunting up patients.

## Any Bad Teeth Today?

## Ottawa Civil Servants Achieve Pattern For Organized Mass Recreation

Social dancing is one feature of recreational association's activities. Membership already numbers over 12,000, who contribute 25 cents monthly to "RA" fund.

Three major bowling alleys are engaged exclusively for Recreational Association members on Sundays. Bowling leagues for both sexes are in full swing.

Chateau pool lifeguard Alan Egan chats with "RA" swimmer Pegi Mooney. Swimming program of Association necessitated engaging three Ottawa pools.

Members of Radio Acting group watch efforts of one member with concentrated attention. This is one of forty different activities already launched by RA.

Philately, the science of stamp-collecting, is organized under the direction of William Krimm (left), who has collected stamps since he was ten years old. With him are E. Werner, (centre) and W. G. Olmsted.

Baby minding service enables parents to spend evenings out together. Here Violet Tool, whose husband is in army, minds baby of Mr. and Mrs. R. J. Edmonds.

Professional organization of activities has been important factor in success of RA. (L. to R.) Fred Stoate, Ed Parker and Theta Sugrue came to RA as experienced professionals in their field, form nucleus of paid staff.

## BLOOD DONORS

We are giving this opportunity to say "thank you" to all Blood Donors for their magnificient support in helping to make our Blood Clinic in Lindsay a success. Also thanks to the most efficient staff of doctors, nurses and all other helpers for their hard work.

We are greatly indebted to the Anglican Church for the loan of their well equipped Memorial Hall.

We are also indebted to numerous firms and individuals for contributions of food and articles loaned to us in our work.

We rejoice that the need for this work no longer exists.

L. Perkins, Committee Chairman.  
D. McQuarrie, President Red Cross Society

By James W. Burton, M.D.

### Some Thoughts on Fatigue

More and more we are coming to realize the importance of rest to our health and welfare. We have all heard of the need to look after our health. This has been brought home by the effects of rest on war workers. The workers in Britain under terrible conditions worked 70 hours per week and were reduced to 55 hours; the weekly output did not fall off, rather it was increased. In America, where some instances production was 20 per cent greater during a month when workers worked 40 hours per week for four 10-minute periods during a work day. Up to a certain point, rest is good for the body. If we push the limit of work load to an increase in hourly output so that the daily factor of long hours without a rest day and without vacation so reduces the body's resistance to disease that it cannot return to normal. This account will not tell the whole story, it will be largely by staying power that we can do the work that must be done in a year for the general welfare of the world.

This prolonged hours alone is not the whole story of fatigue as pointed out by J. L. Lovell, M.D., U.S.A. Medical Corps, United States Army, in his article "The Body of the Worker".

However, the persistent British designed finishing behaviour, a model of which is now on tour in Canada.

OCTOBER DAYS

We've sent our regular for October days of weather like September. It's been cool and sunny, a day like it will be able to raise and burn our leaves. Many did, and some left them right back on the lawn again.

The air was cool yesterday, and the sun was bright and warm. It was nice enough for a walk, but it had been a little less mouldy. The leaves were still green, though they were getting a bit more brown. There are quite a few water hazards around.

**PLAYING WITH FIRE**

Buckets are nice to have when you're playing with fire. I have some of the leaves under the weasels, it is time to call quits. This is what I do when I'm not playing with small children though, they would play house under the tree. Usually when we have a fire, we have to find sticks along the road and they always taste better when on the beach. But this year, there are so few apples that there are none at all along the beach.

I have a new coat and mother's appearance just as it started to blow. It has kept me dry and has given a very fine boutonniere under rafter's supervision. The leaves are so fascinating, and the smell of the wood is so good, it can't be kept hidden if the children are inclined to be mischievous about these times.

**SCORCHING TOOL**

We were amazed at one little boy who was put out to play in the leaves yesterday and was soon back in the trucks were around collecting and

**FIND THE CAUSE OF LOW BACK PAIN**

There are a great many people suffering from pain in the lower part of the back and in the hip, sometimes running down the leg. This is called sciatica.

In this region it is not always due to trouble in the joints, but may be caused by a strain or sprain through pressure or through injury or strain which is easily corrected by Chiropractic treatment.

Reports from the leading Health Clinics show that there are many causes of low back pain, such as muscle spasm, tendinitis, call blader, larger intestine sinus or some other focal point causing the trouble.

Reports from the leading Health Clinics show that there are many causes of low back pain, such as muscle spasm, tendinitis, call blader, larger intestine sinus or some other focal point causing the trouble.

Treatment can remove these infections, and can eliminate these toxic poisons, by judicious treatment. See your appointment now and know the cause of your ailment.

## Bride - to - be Is Honoured

### Woodville W.I. Holds Meeting

Woodville, (P.N.S.) — A social gathering for which more than 75 invitations had been issued was held recently in honor of Miss Mary McLean.

Her cousin, Mrs. Douglas Stewart, was hostess.

The bride-to-be, a young woman accompanied by her mother and sister Miss Mae McLean, the bride-to-be, and a guest were seated at the head table, trimmings with pink and white streamers and placed beneath the head table were pink and white streamers overall.

Dressed as bride and groom, Inter-club girls, who had been invited to act as maid-of-honor, and a maid of honor, with her cousin, Margaret Anne Chamberlain of Peterborough, were seated at the head table.

The bride-to-be was seated at the head table with her mother and sister Miss Mae McLean, the bride-to-be, and a guest were seated at the head table, trimmings with pink and white streamers and placed beneath the head table were pink and white streamers overall.

Guests were seated in an informal address and after coffee showered with candy by the Little Club, the bride-to-be was presented with a bouquet and opened the case to find the contents to be fine choco and crystal gifts.

A small bouquet was passed around in which each contributing to the shower was given their name to be pinned to the bride's gown. Mrs. Shepherd were her sisters, Mrs. L. Chamberlain of Peterborough, Mrs. H. C. Kirk, Mrs. Mabel Suttor and others.

Miss McLean was seated in a chair in which she was presented with a bouquet of flowers including each of the following: Water lilies,

Red carnations, Tulips, and

Yellow tulips.

Misses McLean and Mrs. McLean

both carried in the lace coverlet.

## 'Killer' Robbers Thought At Large In Lindsay Area

**Local Constable Says Description Of One Robber Helped To Identify Suspect.**

The Two Of Three Robbers Caught

Called Not Full Satis-

fied

Canadian National Railway Con-

sidered the Post Po-

lice

First indication that the bandits were operating in town came when a constable, who had been on duty at the Lindsay police station, reported that two men jumped off the car at the Lindsay station.

Canadian National Railway Con-

sidered the Post Po-

lice

After the two men left, a trial of bet-

ween cars from Belleville to King-

ston, early Saturday morning, was en-

owed by the ringmaster of the gang

when Toronto police described as

tray their "robberies."

The bandits are believed to have

stolen a total of \$1,000 worth of

stamps from the C.N.R. freight

cars.

The bandits are believed to have

left town Saturday evening.

The two men, numbering 15 bandits, are believed to have reached the Lindsay area Saturday night, and had to abandon their auto-

mobiles in Campbellford.

The bandits are believed to have

stolen a total of

\$1,000 worth of

stamps from the C.N.R. freight

cars.

The entire season's crop was de-

stroyed in the ensuing fire, but for-

the most part, the farm buildings

stable. The Millbrook Fire Brigade

was summoned and thus preven-

ted the fire from spreading to the

house.

And he said he had no need for Argo

# PLANNING for TOMORROW'S FARMING

ONTARIO'S FUTURE IN CHEESE  
By W. M. SCHAFFER, Professor of  
Dairying, Ontario Agricultural  
College, Guelph, Ontario

(NOTE—This is the fifth in a series of comments by well-known authorities, written expressly for *Canadian Farming*. Last year, Ontario's cheese output was over 178 million pounds, an average per cow of 1,000 pounds, or about 10% above the war time average prior to the war. During the same period 131 million pounds were exported. The market position of the cheese industry in Ontario is largely because of its position, in the export market that dominates the cheese trade.

In periods of favorable prices for cheese, the industry has been able to sell, to give profitable, and, hopefully, to the future. It is reasonable to expect that the post-war period may bring. We know that prices which are now being paid are indicated by what has been paid during the war. It is natural to expect that when the war is over, and normal demands are again met, there will be advantages we now enjoy will be necessary, when circumstances have changed, to meet. The negotiations regarding the cheese contracts were under way when the war began, and the Canadian Food and the representatives of the Government, that while these negotiations were in progress during the war it could scarcely be considered as a post war price. However, the situation is such that the future will be viewed with alarm but rather from the standpoint of examining possible trends and challenges.

The impact of war is bound to create changes in demand and supply. The effect of the war on cheese may be expected to be different from those which prevailed during the first half of the period of the war itself. In other words, cheese production may successfully meet the demand at a price which is considerably below the pre-war price, a policy of conserving of resources now, when farm income is at a minimum, is likely to be the best assurance for the future adjustment period. The temptation to increase production in order to earn money in the purchase of non-essentials should be resisted, as the cheese produced will be available later for both farm and cheese factories equipment, and the cost of cheese will be considerably improved in terms of quality and cost. Reserves of raw materials accumulated through the war will enable dairymen not only to withstand loss of market, but also to meet the challenge of such occur, but also to make possible carrying through a policy of self-sufficiency in the best interests of the industry.

Let us recall that for the past five years of war the cheese industry has enjoyed a nonstop increase in production, and a corresponding increase in quality and quantity. With the termination of war and the resumption of normal international trade competition in cheese markets can be expected to be very severe. Will assure the feeding of the world the quality of cheese high quality, and quantity, and quantity. This involves the possible improvement and modification of cheese making facilities, and the introduction, and the acquisition of modern milk-cooling facilities on many farms. Undoubtedly, human ingenuity can find ways to increase second-grade and moderate cheese to increase the inferior milk supplies.

Among other considerations to which the cheese milk producer must give attention is the cost of producing milk to his own herd. Not only will the industry be compelled with competition to reduce the cost of production, but the cost of production will also be a vital factor in his future. One of the most important factors in the cost of milk production will be to improve the average production per cow. There is no doubt that among the reasons for the low average production per cow in Ontario may be found many individual cows and even herds.

For example, the price per pound of milk would pay maintenance, feed, and the cost of production plus a profit. To establish a market for cheese at lower prices, it will require drastic reductions in the production costs. This will entail a policy of herd improvement, which will involve the keeping of milk and fat production records followed by judicious selection of good cows and bulls. The application of new methods of breeding and the possible introduction of additional females into the herd will undoubtedly make necessary a reorganization of existing cheese factories, and factory and office facilities.

From the standpoint of cheese manufacturing costs there is little doubt of the existence of two main factors which influence the cost of cheese in Ontario—factors in which the present cheese output is too large. The first factor is the untrained personnel to manufacture cheese efficiently. Many of these cheese factories are owned by persons who after years with oil equipment which has reached a point of relative obsolescence, and the cheese future demands will undoubtedly require a reorganization of cheese production.

It is evident that the main point to be made in that regard is that when prices are most favorable

## Hold Monthly Prayer Meeting At Woodville

Woodville, (P.N.S.)—The regular monthly prayer meeting was held last evening at the First United Methodist Church, Woodville, with a large attendance despite the inclement weather.

The remaining 85% of the cost of cheese production is the cost of raw materials, which is determined by calculating that portion of the cost of cheese which is most favorable

when prices are most favorable

and the cost of raw materials

is the cost of raw materials

## PROCEEDINGS OF TOWNSHIP COUNCILS

Markland Township, Balaian, Oct. 4 As a result of a recent decision by the town council at Balaian recently the road improvement requirements have been reduced in certain portions of the boundary road between the townships of Cavan and Markland. The town council agreed to advertise and will post signs as to the condition of the road.

Communications received by the Council were read from E.P. McMillan, who reported that concerning a proposed bridge to be built in the municipality, from the Ontario Ministry of Highways, Department of Public Works, from Toronto; Ontario Hospital, Feeding Foundation and the Royal Canadian Legion, all of which were in full agreement.

Council received from R.E. Hart and D. Fisher, damage to automobiles on certain roads, and on service roads.

## 42 KILLED IN ONTARIO BY FIRE IN 3-MONTH PERIOD

36 Men, 3 women and 3 children, a total of 42 souls, were fatally injured in 42 separate fires in the Province of Ontario during the three-month period ending Sept. 30. Of these, 20 men, 5 women and 12 children were seriously injured during the same period.

The above facts are contained in the opening paragraph of the Report of the Ontario Fire Marshal, who issued it in the Ontario Fire Marshal's office.

The report also reveals that the number of fires for the same period of 1945 was higher than that year, 1944, when there were 36 more dollars higher in the third quarter of 1945 than they were in 1944.

Fires in the Province during this period this year caused losses total \$1,793,818 as against \$2,760,000 in 1944.

In the opening paragraph of the first section of the report it is noted that there were a total of 352 fire occurrences in the three-month period covered, while in 1944 there were 341. It is also significant that these fires of unknown origin, started in the home, garage or basement, totalling \$1,327,167 were involved in the 329 fires which, compared with last year, shows that the causes which make them look like small change. For example, smoking blazed for the greatest single number of fires, success and defeat.

in this period, 125 is to exact, but one has said "the patient has had a bad time" and another "he has his rheumatism." This caused bring a joke because nearly every chess player has had his share of rheumatism.

A complete classification of the causes of fires for the quarter follows:

Household articles	140
Stoves and furnaces	140
Appliances, coal and open fires	140
Smoking	127
Lightning	10
Lighted cigarette ends, matches, etc.	90
Suspicious—Combustion—harmless	8
All others	40
Incendiary	32
Miscellaneous	191
Unknown	312
Total	3,546

## Halwane Counter

Our shop are all ready for Halloween and have all sorts of hats, terms, favors and other necessities.

Remember what caught our eye in one shop and it was a pumpkin lantern with a candle inside. I thought it was darling. One could have fun on the liquid to make way for the flavor and the family would like it.

What kind is it? And did you have one recipe for it and well have to look it up?

V V V

A barbecue Potato Salad. Mrs. Johnson's is delicious and she does it in a certain kind of a salad that's different. Right now we have a lot of foods you can feed your face from an economical point of view.

For example, at Cutty's, 4 cups shredded cabbage, 1 cup chopped carrots, 1 cup chopped onions, 1 cup chopped green pepper, 2 tablespoons sugar, 1 teaspoon every flavoring, 1/2 cup mayonnaise, 1 tablespoon horseradish, 1/2 cup prepared mustard, 1 cup mayonnaise, 1/2 cup vinegar with curried mustard. Combine cabbage, green pepper, salt, pepper, sugar, mustard, mayonnaise, onions in a steel bowl. Squeeze carrots in round edges of bowl. Garnish with horseradish and mayonnaise made in a round flower.

When ready to serve, combine vinegar, mustard, mayonnaise and sugar. Mix vegetables together. Serve with a

little dressing on top. This is a great meal giving things new and old on when these become dull.

So well have to go to the limit if the looks are going to go over and over again.

V V V

How About Your Beard? People are digging down into their pockets to buy beard oil to figure out how they can finance a large Victory Bond. What they don't know is that there are up some things but they are certain it is money well invested.

Some are getting added strength from our bonds and some are getting added that we are getting things now but later on when these become dull.

So well have to go to the limit if the looks are going to go over and over again.

V V V

How About The Pumpkins? When you have the pumpkins ready to be used after words for halloween, pie, or save for next year, here is a tip.

One切 for heat and another for cold and then you have plenty of filling for the pie.

Then cut the pie in small squares and more meat in a heavy pumpkin and the flesh is likely to be more moist than the pie.

So add a little water and cook it all right. To cook it all right, to improve its flavor and drive out some of the moisture but not too much so it's not cooked. As for pie, it's a good idea to use a pie dish.

But it's not the best idea to use a pie dish because the pie dish looks speckled, try mixing the spices with the dried ingredients before you add them to the pie.

Before you add the pie dish, add a little water to the pie dish and

then add the pie dish to the pie dish.

Then add the pie dish to the pie dish.

Then add the pie dish to the pie dish.

## PACKERS FACED DIFFICULT PROBLEMS CLAIMS WRITER

There have been a great many developments in the Victoria County area as well as in numerous other sections of the country which have caused us to take a look at the situation. Taking them to the City of Toronto, we find that the meat packing industry there, facing for food and storage until their arrival, when they will sell them at a price to keep from losing all they have invested by returning them.

The packhouse workers had nothing to do but wait while their work was painted as a Capitalistic attempt to ruin the meat packing industry. They were told to stay the day. The side of the meat packing industry.

The packing industry of Canada has always been regarded in the nature of a public utility. On one hand, it is a great source of employment; on the other, it is a great source of wealth. It is day by day, week by week and year after year to ships all over the world, to the ports of Canada, regardless of the number, quality and season in which they are shipped. The meat packers have expected to be paid regularly, the class and grade of meat to be paid for.

The packhouse workers have accepted those responsibilities of giving charge of their products and a part of the proceeds of their work to the men in whom they have been earned.

Added responsibilities were imposed upon the meat packing industry during the war years which was to be expected. The meat packers, far, far away, far above the peace-time obligations. Although the war was over, the meat packers' demands must still be met.

Wartime regulations having been lifted, the meat packers are now in a little of what the meat-packers' industry had to go through.

In Canada, as in other countries, the raising of hogs and meat products, the slaughter of livestock and the processing and shipping of meat products are under Government inspection. Therefore, it is acceptable for export. And meat packers are required, therefore, from plants approved and operating normally and in conjunction with the Canadian Meat Control Board, Canned Food Act and its regulations. The Inspection Service also administers the Meat Control Act, Food and Drugs Act as they apply to meat products. Inter-provincial traffic in meat and meat products is controlled by the Canadian Meat Council, up to the end of 1946.

To the end of 1946, the Meat Control Act has been in effect. However, Mr. George H. Ogden, Head of the Meat Control Board, has recommended that the Canadian Meat Council be continued as a continuation of the Canadian Meat Council.

Under the heading of meat control, we find that the Canadian Meat Council has been established.

The Canadian meat control authority is to the meat packers what the demand is to the hog farmer. When the demand is high, the price is high. When the demand is low, the price is low. The Canadian meat control authority is to the meat packers what the demand is to the hog farmer.

The section of the industry that is an equipment and organized to meet the needs of the meat packers is still called on to provide the supplies required for certain definite purposes. This is the meat packers' concern.

A summary of this is interesting. A Survey of Domestic Use.

In 1946, meat sales were three or four definite divisions.

The most notable division for meat sales was the home preparation of meat. This was greatly increased by the influx of thousands of workers into Canada. The meat packers did not only not increase their production, but they did not even keep up with the demand.

This, the number of meat packers, was very gratifying.

Lunches were served to all taking part by the ladies in charge of the program.

## More Wine In Perspective

As the abundance of supply of the national wine market may be limited in Canada, we can still call on the services of the year, it was learned Tuesday, Oct. 22, from the Liquor Control Board of Ontario.

The officials of the board said the federal restrictions which prevent wine manufacture from making more than 80 per cent of the wine sold in Canada, will be considerably additional supply.

"It is now possible for a consumer to buy a bottle of wine which is not under the ration," said a Liquor Control Board spokesman.

He said the wine market has been开拓, often creating a shortage for the domestic trade of

the plan required under the new law, and that Canadian supplies for this rapidly expanded arm of the service were provided in large quantities.

Since many movements were crooked in secret, bank stocks had to be used.

In third position, we find ships.

Supplies—ships of the Merchant Marine, porters were and continue to be fully stocked to take care of the demand.

Fourth was railway dinner, supplies for food trucks on route, and fifth was the supply of commodity points of both rail lines.

The British Admiralty in firmly

posted to the British Royal Navy.

Surplus dinner, supplies

of the Royal Canadian Air Force.

Food Control Supplies.

The export control supplies have come under a great deal of discussion.

The British government

will be fulfilling.

Finally, the beginning of 1946 to date, the meat packers have been given a total of 1,000,000,000 lbs. of meat.

The packers have been given

over 1,000,000 lbs. of meat.

Beef exports reached a record

high of 1,000,000 lbs. in 1945.

## 14-year-old Boy Accidentally Shot To Death By Playmate

Orono, Oct. 22.—BUD—Tragedy struck at the home of police officer and Mrs. P. A. Ruby of 383 Niagara Avenue, Ottawa, yesterday morning when their 14-year-old son Philip—who was accidentally shot to death by a playmate.

The 14-year-old boy was killed yesterday afternoon when a 15-year-old schoolboy, who had been playing with him, accidentally shot him while aiming his BB gun.

Mrs. Ruby said the revolver

was a souvenir from the continent. He said that he did not know how the weapon became loaded.

### GRATEFUL TO RED CROSS

Toronto, October 22.—Wing Com-

mander Leopold Birchall, D.F.C., the S.S. *Catharine*, pilot who came to the rescue of the survivors of the plane that crashed in the mountains seven hours

out of Tokyo. We left there carry-

ing flags which we'd made from

the American flag. It had been

burnt to a cinder. We were

surrounded by Japanese

and we were all worn out by grad-

ual exhaustion.

For two days we were

on the plane, we had no food or

water, no shelter, no

shelter, no water, no

## OUT OUR WAY

By WILLIAMS

## Our Boarding House with Major Hooper

Ever since the war the labour situation on the farm front has been desperate. Since the end of the war the situation has eased up a little but the Hon. Humphrey Mitchell has pointed out that the new work will still be required for greater quantities.

In addition to the armed forces for farm work, the Hon. Humphrey Mitchell, the Minister of Agriculture, says the M.R.C. and the Canadian Legion have been doing a great deal of work.

Relations between the armed forces and the Canadian Legion have been successful in releasing men for agriculture.

At present, there are over 5,000 applications for the release of farm workers.

The committee consist of professional directors of farm labour, Provincial Agricultural Commissions, representatives of Mobilization Boards and representatives of the armed forces, and also the Canadian Legion who are working closely with the problem of agriculture, including those of farm labour.

While the committee deal mainly with farm workers, they also advise, in some areas on the release of men for logging, mining, and food production. They are also available to advise farmers and others in basic industries on the procedures involved in applying to the War Service who are anxious to take up work in any of these lines.

It is recommended that this week regarding the winter feeding of pigs more particularly with mineralized salt.

Minerals and vitamins are also important in winter pig feeding. The general rule is low in calcium content because the main ration is for lime or calcium supplements. Lime, potassium, common salt, and magnesium salts are well supplied with calcium.

Lacking these additional materials, animal protein should be added to the grain mixture, at the rate of one pound per head per day.

Starches and cropping commonly develop a Vitamin D不足症, which may result in a lack of resistance to disease. Mixing one teaspoonful of a commercial feed oil in the feed daily will help insure an adequate supply of both vitamins.

The oil should be given until the pigs are fully fat, about 10 to 10½ pounds.

The recent Eastern Canada experiments in the use of feeder cattle at Little Current, Ontario, shows some figures of interest to the hog farmer. The results were even more successful than last year.

Initial sales returns received by the Dominion Department of Agriculture for the 1944 live hog sales were sold by the Manitoulin Live Stock Co-operators for a total of \$1,000,000.

An estimated 1,300 attended the sale which lasted less than two hours. The animals were all sold to local buyers, most of whom bought by 40 buyers, most of them farmer-breeders from South-

## FACTS FOR FARMERS

By  
"the farmer."

western Ontario. More than 100 Manitoulin farmers attended the sale which was held in the co-op, which exceeded that of last year by 210 head and \$12,000.

With a lot of building up, the remarks obtained from Prof. F. N. McLean, Head of the Dept. of Animal Husbandry, Dept. of Ontario Agricultural College, indicate that

All birds which chisel, peck, peck, burn, or scratch, should be placed sixteen inches above the ground to prevent the birds from getting at the food from the elimination tract. This permits the elimination of the droppings and improves the keeping quality of the soil. It also prevents the transmission of diseases from the birds to the crops or fruits from the feed remaining in the crop or intestinal tract.

Important. Poor breeding results in a marked reddish discoloration of the feathers. This indicates a lowering of the value of the carcass and its keeping quality will be lowered.

When the weather becomes cool, it greatly facilitates the plucking process to proceed quickly in reducing the number of feathers. If the birds will roost or break surface of the soil and when the carcass comes out, the skin will be much smoother.

Many people are now using soap and water to clean the carcasses with chickens with good results. Water temperature is important.

Many people are using soap and water to clean the carcasses with chickens with good results. Water temperature is important.

Every man on the farms who can be induced after the harvest is over to go to the market to sell his hogs and for least 10 degrees Fahrenheit.

The hogs remain in the water for a short time and then are dried off.

Signs of the changing world are shown in figures concerning the number of people who are engaged

in farm work—as opposed to those in other industries.

For instance, the United States Census Bureau has reported that the number of people in agriculture since the end of the war has trended in a downward and a half towards urban areas.

At the same time, the figures which the Dominion Bureau of Statistics says might represent the number of people in agriculture in Canada show a steady trend in the past century and a half towards urban areas.

The discovery that we have made in our development of ranch and urban flocks offers us a chance to increase numbers of hens, and Canada appears to expect to meet a large part of the demand.

Here are the figures: ten years ago, about one out of every ten people in Canada was engaged directly in farming. They produced enough food for themselves, and also for the rest of the population.

Now the figure stands at one out of every ten people in the nation, divide their directly to agriculture. That's a decrease of nearly 50 per cent with ninety per cent 1940 area.

However, this twenty per cent of the population is still a large number, with many more people in agriculture than in the United States, and far more producers for world markets.

These figures are from the Canadian Council of Food Conference in Quebec City. What the results of the finding will be made known in the near future.

Owing to the extra demands for forest products, special emphasis has been placed on timber.

Minister of Labour for 50,000 additional workers. The Minister of Agriculture has asked the Canadian Minister of Finance to increase the number of men to 100,000.

Every man on the farms who can be induced after the harvest is over to go to the market to sell his hogs and for least 10 degrees Fahrenheit.

in warm cheese milk were found to be detrimental to cheese making. As a result, research is being conducted to find out what makes cheese taste bad and to find ways to correct the defect. In addition, studies of higher grade cheese in different conditions, such as temperature, will be conducted to find out what is another reason for cooling of cheese.

"... and someday, WE'LL take a trip!"

COME WHEREVER in the back of your mind, there's no urge to go places. Right now it can be followed, but it's part of us as Canadians to want to discover for ourselves what the rest of the world is like—to plan for that "some day," when we'll take a trip! That's why it must be part of our planning now, to make sure pleasant things as trips are possible in the post-war world. And they'll be possible only if we fight against inflation—fight now to keep Canada's dollar worth a full dollar!

Why is NOW so important? Because NOW civilian goods are scarce, money is plentiful. NOW is the time we must guard against paying more than things are worth—against black-marketeers—against buying more than we need, or goods we don't

need! NOW is the time we must support rationing and price controls!

Up to the present, we've kept our dollar sound. And we can continue to do so if we keep up a strong, steady fight against inflation!

If we fail in this fight, prices will rise. Wages will never quite catch up. Soon you'll pay, perhaps a dollar for a quarter's worth of goods! And that means your dollar is worth only a quarter! That's inflation!

And after inflation comes depression. Depression means that you nor anyone else in Canada will have money. You'll be lucky if you have a job! So, for our sake, for the sake of returned men for our children, let's never relax our struggle to keep Canada's dollar worth a full dollar!

Make this Pledge Today!

I pledge myself to do my part in fighting inflation:

By observing rationing and avoiding black-marketeers in any shape or form.

By respecting price controls and other measures designed to combat inflation from earliest and unnecessary buying. I will not buy two where one will do.

By buying Victory Bonds and War Savings Stamps, supporting charities and shelling out all such contributions which will lower the cost of living and help keep prices at a normal level.

## "EISENHOWER SAYS GERMANS NEAR REVOLT" "TRUMAN DENIES SECRET BOMB AGREEMENT"

### Bobcaygeon Airman Is Awarded The D.F.C.

OTTAWA, Oct. 31 (Special)—Air Force Headquarters in Ottawa announced the award of the Distinguished Flying Cross to Wing Commander R. A. Gordon, who with his wife, Mrs. R. A. Gordon, resides at Bobcaygeon.

Wing Commander Gordon's citation concludes:

"This officer has a fine operational record. He has completed a large number of operational mis-

sions involving many hours flying over the sea and seas rescue on many occasions over the Arctic and North Atlantic oceans. He is now commanding officer of his squadron, and in this position has shown great leadership, courage and skill at that and in consequence has earned the right to command a unit which must be held in high esteem and confidence. His courage and efficiency have been most marked in the execution of difficult and dangerous flights for hazardous which may be created as a result of some of the pranks which are usually made by the Germans."

The citation continues:

"The Commandant of the Royal Canadian Air Force has decided to award the D.F.C. to Wing Commander R. A. Gordon, who has distinguished himself in operations against the enemy."

Motorists are requested to drive

### Citizens Saving More Than Ever Before Says Committee

Report from all across Canada shows that the Ninth Victory Loan will be Canada's greatest victory. The loan, and Victoria Halibutton, Durham Ontario Peterboro, reports from Victory Loan Headquarters indicate that just how much money will be raised in the campaign from September 1 to November 1, 1945, will have exceeded the target total.

Special News—With an objective of \$200,-

000,000, the citizens of Ontario have exceeded their objective, having raised the record total of \$300,000,000.

Naturally, it takes the field of salesmen a greater lead than the public and child in the Country, but, results to date have been much more than expected.

For example, the Ontario branch of the Canadian War Industries Board has sold \$100,000,000 worth of war bonds.

The Bank Managers and Salesmen indicate that the buyers are largely from the investment class, while the public, or 75%, bonds are passing much higher interest rates than could be obtained otherwise when the bonds were first issued.

Now, however, they are appreciating in price and have been made available again.

The Victory Loan Report from the Township shows that the loan is being taken up by the farmers, who are saving more than ever before, and that they are holding these bonds for the time when industry can no longer buy them.

These things, we are certain, will be without in the past five years.

A great many people are participating in the campaign under the slogan "Buy Bonds—Save Canada."

—OCT.

Western City  
Faces Severe  
Coal Shortage

Portage La Prairie, Oct. 31 (UPI)—A coal shortage has hit the Western City of Portage La Prairie.

Coal is scarce and prices are high. Today there still is a reluctance among Sault Ste. Marie workers to buy coal.

Reports from a city where the coal shortage has been worst say the cost is \$25.00 per ton. This increase is only our share of the overall increase caused by the war, which will be realized in May of 1946.

This Wednesday night is the half-way mark in the campaign to raise \$200,000,000. The coal sales units are running slightly under this but the very popular amount of \$100,000,000 is still available.

The Bank Managers and Salesmen indicate that the buyers are largely from the investment class, while the public, or 75%, bonds are passing much higher interest rates than could be obtained otherwise when the bonds were first issued.

Now, however, they are appreciating in price and have been made available again.

The Victory Loan Report from the Township shows that the loan is being taken up by the farmers, who are saving more than ever before, and that they are holding these bonds for the time when industry can no longer buy them.

These things, we are certain, will be without in the past five years.

A great many people are participating in the campaign under the slogan "Buy Bonds—Save Canada."

Brass Hats  
Seeking To  
Prolong Job

Galt, Oct. 31 (UPI)—Jean Francais, Liberal Member for Timmins—Red Lake—an explanation for the continual revision of the conscription issue on the floor of the House.

Says Paulin—and quote—"It is because of these fellows who are brass hats who could not earn enough to live on, and who are afraid that military business to continue as long as possible after the war so they can keep them."

Hard Liquor  
Quota Boost  
For Ontario

An increase in Ontario's values of hams and liquor and imported wines was announced yesterday by Liquor Commission W. G. Webster.

Berthier, Nov. 1 (UPI)—Ontario imports of hams, bacon, sausages and two 24-month bottles of any type of liquor every half-month, although not more than 100 cases per month, may be imported Scotch whisky, which is in short supply and is likely to continue so far as possible.

Commissioner Webster said he announced that the present quota of one 24-month bottle of any type of liquor every half-month, although not more than 100 cases per month,

was recently reduced when the public went over an endorsement of the government's proposal that, with the end of the Christmas and New Year's rush on liquor stores, it was likely to restrain imports after Jan. 1, might be eased considerably.

St. Frank O'Donnell, Provost Corps, who is from St. John, said that Capt. W. F. Brown, all of Camp Bowes, were in the camp hospital, while the wives of Bush and Tom Bowes, and Capt. W. F. Brown, were confined to the Royal Victoria Hospital here with serious laryngeal infections.

There will be no inquiries.

**Bewoes of Halloween** **Ghosts**  
 Halloween parties have already been held and Monday night is the next time going out for the evening. One girl dressed in an odd-fashioned costume, however, was told that another was dressed like a cat! Don't be alarmed if you meet an odd-looking person on the street. It's hard for choosing a costume is not the easiest of things. Some think up their own ideas, others buy them from fancy to others. The trick is whether you want to look like a person or costume. If it's a costume, designing it might be wise to go comic. It is always amusing to see the reactions of the spectators. The children are the cutest and they have been planning their costumes for weeks now. It's going to be hard on them if they didn't get in candy for them.

**Pumpkin Biting**  
 If we can stretch the word we can stretch the time for a week for Halloween's coming. It is fun popping it and one can do it over again. It's a good time for a treat. It is especially good for a little sugar coating over it and some fresh coffee beans. Melt the bars and add a dash of cream and you have something to eat that is good for you together. Another treat they would mind would be those small sweet candies. They cost about 10 cents a dozen. They are as good as apples but not quite as popular. They are good for you, however, it is just the taste of getting something that matters to them. We can't forget the candy either. Chocolate coated raisins can be readily made too, if not quite as good as the ones we buy to coat them with. Whatever you do, do not let the children down by having some candy for them.

**Parties!**  
 If you're having a party for the children, don't forget to invite friends and give them hot-dogs. They can heat them themselves and if they haven't the sugar to make a cake, buy one. It's the fun they have. No one likes to sit around and have nothing to do. If you have a party from having a party because you don't feel like baking. If you have a party, however, you will always stay with them to taste. Give them the rule of the house and let them have fun. If you have to make it more tame, make some taffy. There is nothing like a good taffy party. It's a good time to have a pool. Let them keep it in the rumpus room though if you don't want your upholstered all stoned.

**Party Favors**  
 Don't forget to have Welch's Raisin or Raisinade. You can buy it for a party. After the party, Welch's Raisinade is good for that party after Halloween's escapades. On October 31st, the bride in a diamond dress and her maid of honor in a pink dress, and the groom in a blue suit, were married at the church of Lorettoherne's Bridal Church, and looked charming in a street-length gown. The bride had a soft blue she wore a bouquet of pink roses and a white fern, with a gold chain and a diamond brooch. Her matron of honor was wearing a pink dress, the gift of a friend, and a pink hat with a pink ribbon. The bride's sister, Mrs. George Novotny, was wearing a street length dress of fluorescent green and pink, and a pink hat with a pink ribbon and tall plumes. The bride's mother was wearing a black dress with a lace collar and a lace hem.

**After the ceremony**  
 After the ceremony a reception was held, the bride's mother wearing a tea-length gown with a lace collar of pink roses.

**Guests**  
 Your crackers critic and ready to serve and the guests will help themselves. You need not be afraid of one of the many gradients of this popular dish. Heat them well and pour a little of each into a small bowl. Mix well. Make it the main dish for the meal for it is a substitute for the potato. You can add a few cubes of cheese on the grown's farm at Gatemouth. Out.

**Salem WMS Ladies Meet**  
 The Salem United Church, Women's Misionary Society, meeting was held Oct. 25, in the church hall. Mrs. E. C. Clark, had charge of the meeting and spoke for them. "The Church in Our Community."

**The meeting**  
 opened by singing hymn 26 after which the offering was taken amounting to \$15.15. The meeting was opened with the first chapter of the Study Book and the minutes of the last meeting were read.

**The Roll Call**  
 was answered by five members and two visitors. A report was given by the Secretary, the Treasurer's Report was read by the Secretary-Treasurer, Mrs. Clark, gave a short reading while Mrs. Trimmer and Mrs. E. Davy gave a temperance report.

**Boys' Helmets**  
 Boys' leather helmets have been a real hit. They are being played with and have developed their own style. Playing with them with Hallow-een symbols. Grinning helmets and black witches seem to be the most popular. The older children all seem to get a kick out of cutting and pasting them on the windows. We noticed that the younger children had a real pull to it. It's going to be an eerie night for them. They will have the nerve to chance meeting someone, if they get home safe and sound.

**Ghost Walk Will**  
 The school children have been to and have decorated their classrooms with Hallow-een symbols. Grinning pumpkins and black witches seem to be the most popular. The older children all seem to get a kick out of cutting and pasting them on the windows. We noticed that the younger children had a real pull to it. It's going to be an eerie night for them. They will have the nerve to chance meeting someone, if they get home safe and sound.

**Overseas Mailings For Christmas**  
 It's time to get your letters out to those who are still overseas and will be for Christmas. We noticed quite a number of them going off last night. It's good to make sure it reaches

protection. Didn't you hear for the

**PERSONALS**

Mrs. Penhalig of Winslips is visiting her son and his wife, Mr. and Mrs. John Penhalig, in Lindsay.

On Aug. 1st, Mrs. F. Lindsay, is expected to arrive on the 8 P.M. train from Toronto to-night. She is dressed in an odd-fashioned costume. Her husband, however, was dressed like a cat! Don't be alarmed if you meet an odd-looking person on the street. The trick is for choosing a costume is not the easiest of things. Some think up their own ideas, others buy them from fancy to others. The trick is whether you want to look like a person or costume. If it's a costume, designing it might be wise to go comic. It is always amusing to see the reactions of the spectators. The children are the cutest and they have been planning their costumes for weeks now. It's going to be hard on them if they didn't get in candy for them.

**HALL'S** **The Family of the late**

Harold Hall wish to express their sincere thanks and appreciation to their many relatives and friends for their kind expressions of sympathy and many beautiful floral tributes sent to them in their recent bereavement. (66)

**In Memoriam**  
 The beloved memory of George and Helen Hall, son and daughter of Mr. and Mrs. William Thornton, who passed away Nov. 1st, 1944.

No eyes can see us silent.

But still we live in silence hearts

we keep to Mother and Daddy.

(66)

**WEDDING**

**WEDDING** **RECEIVED**  
 The name of Mr. and Mrs. F. W. Wilson, 5th Con., Thorold, was the name of a pretty wedding. Friend

and relatives were invited to the church of the late Christopher Thompson of Cambridge. Rev. A. M. Partridge, Pastor of the church officiated.

The living room was tastefully decorated with chrysanthemums, carnations, orange juice and a cascade of other blossoms.

Given a surprise by their father, the bride and groom were the stars of the drama of Lorettoherne's Bridal Church, and looked charming in a street-length gown. The bride wore a bouquet of pink roses and a white fern, with a gold chain and a diamond brooch. Her matron of honor was wearing a pink dress, the gift of a friend, and a pink hat with a pink ribbon and tall plumes.

After the ceremony a reception was held, the bride's mother wearing a tea-length gown with a lace collar of pink roses.

A delicious meal was served and the bride and groom left amid shouts of content and good wishes for a trip north, the bride travelling in a car with her parents and a maid, while the groom travelled in a bus. Black coat and black shirt, black hose and black accessories.

The bride and groom will reside on the grown's farm at Gatemouth. Out.

## Dry, Roomy, Well-Bedded Pens Necessary To Raise Fall Pigs

Toronto, Oct. 30.—The fall pig is the final and the most successful hog feeder. Farmers are advised that damage to the sow's udder, and the resulting unbalance of rations can be causes of failure with Fall litter.

Pigs will withstand the cold more easily than the heat. So dry, roomy, well-bedded quarters that are free from drafts and the freedom of unbalanced rations are the keys to success of fall litter.

It is pointed out that when pigs are fed to excess, they may not make the best use of feed consumed.

E. Wilson, of the Dominion Experimental Farm at Lacombe, Alberta, has made a supplementary study that suitable supplementary feed along with grain is good for pigs in the winter season.

In such cases tankers or a mixed commercial product is indicated in the meat ration.

The Experimental Farm at Lacombe, Alberta, found that the inclusion of market hogs was successful:

"For pigs from weaning to 100 pounds, a diet containing 10 percent feed with eight to 12 percent tare, preferably the higher level, is recommended. For pigs from 100 to four to six percent lardage from fresh meat, tankers or a mixed product is indicated."

Therefore, Wilson says the fall pig can get help to build his own coat and keep him warm.

Wilson adds that grain must be added to farm rations to get the best results.

He points out that grain is not

## GRANDMOTHERS' MEETING HELD BY L'BRITAIN W.I.

Little Britain, Ont.—The Monthly Meeting of the Little Britain W.I. was held recently at the home of Mrs. Marcy Griggs on Oct. 26.

There was a large attendance of members and grandmothers for the occasion.

Mrs. M. L. Moore, Lawrence Head was in the chair and the meeting got under way by singing "O Canada."

The Lord's Prayer was repeated in unison after which the Secretary reported that the Miss Griggs had adopted.

The Treasurer's report was next given by Mrs. Frank Williams who said there was a balance on hand

## Symbol of TRUE FOOT COMFORT Our DR. LOCKE fitting pledge

A detailed illustration of a woman's dress shoe with a small leather tag attached to the toe. The tag has some faint text on it, though it's not clearly legible. The shoe is shown from a three-quarter angle, highlighting its design and the tag.

Clothes show fitting is an essential to foot comfort as correct shoe construction. This is why Dr. Locke pledges his efforts to fit his clients so that the scientific principles laid down by Dr. Locke himself!

D. W. W. LOCKE

The clinical Dr. Locke says fitting is the first step to foot comfort. He pledges to meet every shoe problem so that every wearer finds the shoes he fits the famous doctor's name. — M. W. Locke

## Little Britain United Church W.A. Convenes

Little Britain, Ont.—The秋季会议 of the Little Britain United Church W.A. was held in the basement of the church with 125 members and three visitors.

So it is pointed out that when the church is open to the public it is open to all.

Craving to the theme of "The Lord Is King," Mrs. St. John Chidley, who was in charge of Mrs. G. Steele, who opened it with the words, "The Lord is King," followed by the singing of "The Lord Is King."

Frances' report was read and adopted and a very gratifying balance of \$144 was presented. Correspondence was received and read and Mrs. M. C. McRae and Mrs. S. St. John Chidley were appointed and arrangements were made for the program followed. Mrs. Carlton Shantz sang a solo. The hymn "Blessed Assurance" was sung and Major Milford of Penetanguishene was the organist.

After the service a luncheon was served to the visitors by Mrs. Caleb McRae and Mr. L. W. Scott and Mrs. L. B. Scott.

During the stay of the visitors in Haliburton they were billeted with Miss Friend.

## Describes Red Shield's Work During Blitz

Haliburton, Ont.—Haliburton had the privilege on Sunday last of hearing Major Mrs. C. McRae speak on the work of the Red Cross during the first division during the blitz days in England in 1940. Major McRae spoke on behalf of the Red Cross to relate a large gathering at all Sunday services to

The Fredericton Falls Salvation Army band were guests of the Haliburton band who were entertained at the meeting.

According to reports given out by the Red Cross, the organization extended the three services rendering almost round the clock throughout the day, and the overwhelming number of calls for help were met with a smile and a greeting by the gents and Mrs. C. McRae.

At the service a luncheon was served to the visitors by Mrs. Caleb McRae and Mr. L. W. Scott and Mrs. L. B. Scott.

During the stay of the visitors in Haliburton they were billeted with Miss Friend.

## WEDDINGS

### COOPER — MCRAE

In a quiet and early wedding at the home of Mr. and Mrs. J. B. McRae, Prayer by Mr. A. M. Tremper, and the Institute of the Royal Canadian Legion in memory of their parents.

Mr. and Mrs. Cooper were also made and carried that the bride and groom were to be married for the Public Library and that the Minister, Rev. Mr. Heathcote, officiated.

Rev. Mr. A. Birds of Our" was sponsored by Mrs. G. Webster, after which the bride and groom were married.

The ceremony was performed by Rev. Mr. M. Partridge, took place against a lovely setting of bright sunlight.

To the strains of the wedding march, played by Elsie Gaudet and her piano, the bride and groom exchanged rings.

After the service a luncheon was served to the visitors by Mrs. G. Webster and Mr. A. Birds of Our" was sponsored by Mrs. G. Webster, after which the bride and groom were married.

Mr. and Mrs. Cooper left by automobile.

The knife used to cut the cake was one sent from India by the groom's brother, who is a Flying Officer.

Following the bride wore a black and white checked suit with blue top.

The groom wore a suit near Washington.

### OBORNE — BROWNSTON

In St. Mary's Church, Lindsay, Rev. Mr. F. G. Patterson, son of the daughter of Mr. and Mrs. John Oborne, became the bride of Miss Dorothy Browning, daughter of Mr. and Mrs. Maxell Oborne.

Rev. Mr. Tremper officiated.

As Miss Ruth Shanner planned the wedding, the bride intended to have her father, who was a flying ace, be with her family.

The late Mr. Webster was a true Christian woman, always ready to help others, and was a member of Zion Church, and had been offered the services of Rev. Mr. Oborne, the Sunday previous to her death, for the funeral service.

The funeral service was conducted by Rev. Mr. Tremper, of the First Presbyterian Church, a close friend of Mr. Webster.

Miss Shanner, who sang the beautiful words of comfort, "I am not afraid to die," was a red rose, red ribbon, and a bouquet of pink roses.

The groom was attended by the bride's father, who was a golden heart bracelet, and the best man a light suit.

For the honeymoon the bride and groom will travel with light baggage and accessories and corsege of pink roses.

Mr. and Mrs. Oborne received many beautiful wedding presents.

### OBITUARY

MRS. WESLEY WERNER

On Monday morning, Oct. 21 at 2 a.m. Mrs. Wesley Werner, widow, one of the Master's followers was called to lay her to rest in the "wrestling ring." That person was Stella Gertrude Everson, beloved and much loved wife of Wesley Werner.

She was born in Fredericton, N.B., and died in Lindsay, Ontario, March 17, 1918, she married Wesley Werner, and had two sons, David and Wesley, who resided at their home in Balsam Grove.

She had been in poor health for a number of years, but had tried hard to

## That Body of Yours

By James W. Burton, M.D.

BREATHING THE FIMBRIOTALLY

It is estimated that in cases of pneumonia 20 percent of the persons seeking medical help present essentially normal findings.

The body is not only a means of stress of war, not only in the armed forces but even among civilians the percentage is increased.

I believe every adult man, woman and child has had at least a little "different" that during the past year.

Whether it was Mrs. Chidley or Mrs. A. L. Tremper respectively, I am not sure.

Toronto, Oct. 28 (UPI)—Morty, a Toronto boy, Friday the thirteenth, but that's the same day the 13th was unlucky for a man at Toronto yesterday.

Police arrested 13-year-old Morty, son of Sam Merritt, when he allegedly took the 13th, tried to cash a fraudulent

## Omabee W.I. Votes \$141 To Hospital

The October meeting of the One-Melee Women's Institute was held at the home of Mrs. Wm. McDonald, 1000 St. George Street, Toronto.

The meeting opened by singing the Institute Chorus, followed by the Lord's Prayer. The roll call was answered by nearly half the children.

The meeting adjourned to sing the National Anthem, the next meeting to be held at the home of Mr. & Mrs. McCallum.

Lunch was served by Mrs. McCallum and her hostesses, Mrs. Bradburn and Mrs. H. Fraser, and the meeting adjourned to the home of Mrs. J. Mayes Brooks and Mrs. Neale.

The singing and sale of tickets were the main features of the meeting.

Proceeds from the sale of tickets were being donated to the Sick Children's Hospital in Toronto. Tag day for the blind amounted to \$30.

The page from the scrap book was:

Given by Mrs. L. Mart and a committee was chosen to look after overseas boxes, consisting of Mrs. Woods, Mrs. J. MacLean and Mrs. McBain and others. Mrs. McBain and Mrs. Neale, Mrs. Rutherford, Mrs. Armstrong and Mrs. Cornwall.

The meeting closed with the National Anthem, the next meeting to be held at the home of Mr. & Mrs. McCallum.

We have had a meeting of our committee appointed. Mrs. L. Park, Mrs. J. Mayes Brooks, Mrs. Neale, Mrs. J. Mayes Brooks and Mrs. Neale.

## The Minister of Labour appeals to

## FARMERS

FARM WORKERS  
RETURNED MEN  
& WAR WORKERS

Hon. Humphrey Mitchell  
Minister of Labour

VITAL to Canada's economy at this time is the forest industry. Forest products must be produced in increasing quantities to maintain employment, and to aid in reconstruction at home and abroad. Job opportunities in the woods this winter offer better conditions than ever before. We appeal to every man who can work at a woods occupation to offer his services—and be assured of steady, healthy employment for the Fall and Winter months.

*Humphrey Mitchell*

## Would Lift Meat Ration If Packers Go On Strike

Montreal, Oct. 29 (UPI)—In a sum position, Mr. Merritt said that if the Canadian Government did not take action to stop the operation of taking over the meat packing plants in order to prevent the raising of prices for three dollars. And they say he was in the habit of then rales.

Mr. Merritt, Hon. Thomas L. Kennedy, Ontario Minister of Agriculture, and Mr. E. G. Campbell, Minister of Agriculture, Federal Minister of Agriculture, pledged the support of Ontario to the strike, if the meat packers would give up the amounts from the accounts.

In case, however, that a strike might take place, he would make the following requests:

(1) That meat rationing be abandoned and that the meat packers be given the 1,000,000 head slaughtering capacity which they now have.

(2) That permission be granted to the meat packers to keep their plants operating. In his letter, Hon. Mr. Kennedy said that meat packers should be given the right to keep their plants operating. In his letter, Hon. Mr. Kennedy said that meat packers should be given the right to keep their plants operating.

These requests were made at a meeting of representatives of the Canadian Agricultural Committees of the provinces and territories, to the seriousness of any threat to continued operation of the plants.

They felt particularly concerned at the present time because of the value of \$2,000,000 was slaughtered daily in Canada, and the meat packers were threatening to stop the production of meat.

The text of Mr. Kennedy's letter to the Federal Minister of Agriculture is as follows:

"Dear Mr. Gardiner—Please permit me to congratulate you on the action of the Canadian Government in taking over the Canadian packing plants in order to ensure their continued operation. We are deeply grateful to you for having given us the opportunity to strengthen your hand in keeping the packing plants in operation. This will enable us to continue to help with the war and to produce more meat for the Canadian people. The week before last, the killing of cattle, hogs and sheep in Ontario reached a total value of \$19,000,000."

"Under these circumstances, the farmers feel that a strike in the meat packing plants would be disastrous, and that the flow of cattle, raised to maximum sacrifice, to the meat packers would be interrupted, and that they should not be forced to accept the tremendous reduction in price which would be incurred if the packing houses closed.

"That on Earth Do Dwell," and this Monday evening lantern slides shown in the Canadian Church on Sunday, the Canadian Church of the Ascension, conducted the service and Mr. Hodder presided at the organ.

The service was well attended. The settled point north were exceedingly interesting.

There were many services during the evening, "For the Night is Coming" and "All People

The church was attractively decorated for the occasion.

That's all for now. Good night.

Yours very truly,

MR. H. C. HODDER, Minister of National Defence.

## A NEST EGG for YOUR FUTURE

Sign your  
name for  
Victory.

Keep on buying Victory Bonds and keep on saving money away. See that the war is finished soon, and better living opportunities will be open to everybody and you will be in a position to buy those things for which you have been longing. You will be saving the most successful way of saving that you have not only helped Canada achieve Victory but have also more profitably bettered your own prospects.

## BUY VICTORY BONDS DRURY'S GROCERY

**He went away a boy -  
He came home a Man**

He has seen things . . . done things . . . suffered things . . . that he won't talk much about. But he is doing a lot of thinking. He is thinking of comrades who will not return and of others who have yet to spend months in hospitals. He is thinking of the families of those who died. And he is thinking of his own future and what it holds for him. He realizes that he has a handicap of years to overcome to catch up with those who held civil jobs while he was away fighting.

When he was in the service, he too bought Victory Bonds, because he realized what the aftermath of war would mean to him and countless thousands of his comrades.

Double your purchase of the forthcoming Ninth Victory Loan Bonds. You know a year to save for them and a year to pay for them. You know how to buy them at the same rate or monthly rate as before and it will be easy. By doubling your order for Ninth Victory Loan Bonds, you keep faith with the men in uniform and help to insure the future of your own financial position to take advantage of future opportunities that lie ahead.

HYDRO WORKERS PRAISED FOR  
HELP IN NINTH VICTORY LOAN

While on the subject of the Pro-

gress Indicator, John organiza-

tion, the brains of the hydro-

electric industry, to combat

various tasks like con-

struction, maintenance and

operation, etc.

Through the courtesy of the hydro-

and the manager of the Lindsay Hydro a special hydro electric

company, Mr. W. C. Clegg, Presi-

dent, we are able to report

that the hydro workers

are greatly to be recompensed

for their work in the

erection of the Victory Loan

towers across the land, which

is a great service to the

country.

Mr. Clegg, who is the chairman

of the local committee, has

asked the hydro workers and

their wives to contribute

to the Victory Loan Fund

in the amount of \$100,000.

This sum will be used to

help in the building of

houses for the families of

men who have given their

lives for their country.

To those who have donated bed-

ding and clothing, we would like

to know what happens to the

goods after they have been sent.

The goods received are placed

in strong cardboard boxes and

shipped out. Mats are packed

in separate packages and the

shoes, tied together in pairs,

are placed in leather bags.

According to Mr. Clegg, each

package will constitute each shipper

and the first of these is scheduled

to leave Monday morning.

Mr. Clegg said yesterday that

the goods will be sent to the

nearest port and it is hoped to get

most of Canada's rations to the

displaced persons in Europe.

Those who have donated bed-

ding and clothing are invited

to know what happens to the

goods after they have been sent.

Mr. Clegg said yesterday that

the goods will be sent to the

nearest port and it is hoped to get

most of Canada's rations to the

displaced persons in Europe.

Those who have donated bed-

ding and clothing are invited

to know what happens to the

goods after they have been sent.

The goods received are placed

in strong cardboard boxes and

shipped out. Mats are packed

in separate packages and the

shoes, tied together in pairs,

are placed in leather bags.

According to Mr. Clegg, each

package will constitute each shipper

and the first of these is scheduled

to leave Monday morning.
